

HOW CAN YOUR SCHOOL BENEFIT FROM KEEPNTRACK?

KeepnTrack Visitor Management Software is designed to optimize the way you manage all persons on and off your campus. Now you can effectively track, manage, and report on all campus traffic and activities.

Benefits include:

- Automatic visitor check in + out
- Reporting on volunteer hours
- Real-time visitor activity monitoring
- Instant sex offender and criminal background checks
- 24/7 live support for all users
- Authorized late arrival/early dismissal for students

Increase Efficiency

Automate tasks, such as recording and sorting data. Removing these disruptive auxiliary tasks enables staff to perform their primary functions much more productively. Uniform protocols facilitated by the system make managing traffic on campus an orderly process.

Reduce Administrative Costs

Maximize your budget by eliminating operational waste such as staff time occupied by inefficient, antiquated procedures. Not only can you streamline activities essential to daily operations, the powerful reporting tools empower administrators to make fast, accurate, and confident decisions.

Mitigate Liability

Take a proactive approach toward incident prevention and management by replacing unreliable paper sign-in forms with electronically stored data that is easy to retrieve and aggregate. Identify and filter threats before they can gain access to your campus by running instant sex offender and criminal background checks.

What Do Others Love About KeepnTrack?

“We have been using KeepnTrack for 6 years and it has been a great addition to our charter school. We can track all the volunteer hours for the year, which is handy when applying for grants. We get comments all the time from parents who are impressed.”

– T. Pryce, Business Manager, Luckiamute Valley Charter Schools

“It’s very difficult to keep track of 700 students. As the only nurse here, I need to keep teachers advised of student’s health needs. KeepnTrack was willing to take a suggestion and add it to our screen. This will make my job 10 times simpler. Thank you!!”

– K. Morton, Nurse, Lewisville ISD
